Concrete LYFE Comprehensive Evaluation Plan

The Concrete LYFE Comprehensive Evaluation Plan focuses on maximizing impact, integrating evidence-based practices, and ensuring continuous improvement. We use quarterly reviews to refine strategies and ensure alignment with our mission.

Key Frameworks:

- ASCD Whole Child & WSCC Models: Support holistic health and well-being.
- CDC Youth Advisory Councils: Incorporate youth input.
- Preventing ACEs & Promoting PCEs: Reduces adverse childhood experiences.
- Youth.gov Evidence for Improvement: Enhances program outcomes.

Innovative Practices:

- Real-Time Data: Continuously adapts programs.
- Local Networks & Modern Branding: Expands outreach and connects with youth.

Evaluation Tools:

- Surveys & Observations: Gather feedback and monitor quality.
- SMART Goals: Ensure measurable objectives.
- Pre-Activity Compliance: Verifies alignment with key goals.

Quarterly Sustainability Reviews: Focus on leadership, partnerships, and funding. We evaluate the Program Model, Services, and Sustainability for long-term impact, using a 10-point framework to ensure effectiveness, alignment, and continuous improvement.

LYFE Impact Evaluation Plan

The LYFE Impact Evaluation Plan ensures Concrete LYFE's programs are effective, sustainable, and impactful by using several key frameworks:

1. CDC Framework for Public Health Impact: Aligns programs with public health goals, assessing needs and monitoring outcomes.
2. Logic Model: Maps activities, outputs, and outcomes to address adverse childhood experiences and promote well-being.
3. Youth Advisory Councils: Incorporates youth input to ensure programs are relevant and empowering.
4. Kirkpatrick's Four Levels of Evaluation: Tracks reactions, learning, behavior, and results for continuous improvement.
5. SMART Goals: Sets measurable, achievable goals to guide progress and improve outcomes.
6. Cost-Effectiveness and Cost-Benefit Analysis: Ensures efficient resource use and financial sustainability.
7. Realist Evaluation: Refines strategies based on "what works, for whom, and under what circumstances."
8. Developmental Evaluation: Adapts programs in real-time to community needs.
9. Impact Evaluation: Assesses long-term community health improvements and reduced disparities.
10. LYFE-style Model: Uses real-time data, local partnerships, and modern branding to enhance youth engagement.
